

Klove is a positive encouraging word that keeps me going through the day. The message and impact it has on nationwide communities are invaluable. Please do not cease the spread of their message and purpose. There are so many music and radio stations out there that do not have any real purpose besides providing music and entertainment for listeners (which is not bad), but KLOVE is different! There is real love coming from this station. If you have never heard K-love, I encourage you to turn your radio to the station (www.klove.com) and listen for just 30 minutes to see the impact and importance it has. It won't take long to see how great this station is!!!! Thank you very much and God Bless!
